

# The Fergusson Farm

---

767 Old Mammoth Cave Road, Cave City, Kentucky 42127

## Policy & Practice

- Change all clothes out of sight of neighbors. You can change in the cabin (key required) or behind the cabin.
- If you are camping, please camp within the fenced area or you may camp in the woods out of sight of the road.
- Restroom facilities are located behind the fourth tree on your left.
- Potable water is available from the hydrant in the fenced-in area. Key or combination for lock required.
- Do not swim in pond. It is being treated. Showers are available at the Park Campground. You can swim in the Green River, by the Ferry.
- Please keep all noise to a minimum. Drinking your libation is fine, but you are in a dry county. Please be discreet.
- Pack out all trash with you.
- Use a minimum of three (3) anchor points for rigging the entrance drop.
- The cave gate swings into pit once released. It is suggested you use a safety.
- Read and understand the Rescue Callout List! (remember: SELF-RESCUE)
- Sign your life away with the Release Form. Please hand this back to Dave E. You only have to fill out one and it will stay on file.
- Fergusson Cave and caving information can be found on the web at:
